

<b>Georg-August-Universität Göttingen</b>		6 C
<b>Module M.WIWI-BWL.0175: Entrepreneurship Research</b>		2 WLH
<b>Learning outcome, core skills:</b> After successful participation in the module, students are able to compile, research and select the scientific literature relevant to a question in the field of entrepreneurship. They are able to derive hypotheses from existing research, to test these hypotheses empirically and to critically reflect on their own contribution to research.		<b>Workload:</b> Attendance time: 28 h Self-study time: 152 h
<b>Course:</b> M.WIWI-BWL.0175.Sem <b>Entrepreneurship Research</b> (Seminar) <i>Contents:</i> In the first part of the course, basic concepts and methods of entrepreneurship research are taught. This refers in particular to the skills needed to write a scientific essay. Furthermore, students learn how to use the software STATA for quantitative-empirical analyses. In the second part of the course, students apply this knowledge by independently deriving a research question in the field of entrepreneurship and empirically testing related hypotheses. They demonstrate this knowledge by presenting their research question, hypotheses, empirical results and contribution in a presentation and a term paper.		2 WLH
<b>Examination: Term paper (max. 12 pages per person) in group work</b> M.WIWI-BWL.0175.Mp: Entrepreneurship Research <b>Examination prerequisites:</b> Regular attendance and presentation (approx. 20 minutes) in group work		6 C
<b>Examination requirements:</b> Students prepare a presentation and a term paper on a research question in the field of entrepreneurship research. They work in small groups and present the results of their work in the course. In doing so, they provide evidence of sound knowledge of the derivation of research questions and hypotheses, their quantitative-empirical testing, as well as subsequent critical reflection.		
<b>Admission requirements:</b> none	<b>Recommended previous knowledge:</b> Basic skills in empirical methods, e.g. M.WIWI-BWL.0168 Empirical Methods and Skills; if available also basic skills in entrepreneurship, e.g. M.WIWI-BWL.0173 Entrepreneurship	
<b>Language:</b> English	<b>Person responsible for module:</b> Prof. Dr. Matthias Schulz	
<b>Course frequency:</b> each summer semester	<b>Duration:</b> 1 semester[s]	
<b>Number of repeat examinations permitted:</b> twice	<b>Recommended semester:</b> 2 - 4	
<b>Maximum number of students:</b> 20
