Winter Semester 2017/18

A seminar is a course in which students ideally contribute a substantial part themselves, by way of presentations and statements; depending on the stage of studies, a distinction is made between proseminars, advanced seminars and post-graduate seminars.

Übung / Tutorial / exercise

Mostly offered in conjunction with a lecture; here practical

implications are explained or the application of what has been learned is practised.

Vorlesung / Lecture

Course of basic or advanced studies, in which the lecturer generally speaks about scientific topics and the students listen; discussions are rare.
